# STOP GERMAN COMMERCE, ENTIRELY, ENGLAND'S PLAN

## *All Commodities Included In Blockade Policy Announced Tody By Premier Asquith*

By Associated Press.

**London, March 1.** The establishment of a virtual blockade of hostile countries is Great Britain's reply to Germany's attack on merchant shipping as announced officially today by Premier Asquith in a momentous speech in the House of Commons. The plan of the allied governments for the regulation of shipping to and from ports of hostile nations contemplates the prevention of commodities of every kind reaching or leaving those ports, without however risks to neutral vessels or their crews. The allies will hold themselves at liberty to capture goods presumed to have come from hostile countries or deemed to be destined for them.

They have no intention, however, of confiscating ships or cargoes which are detained unless they are liable under confiscation under normal conditions of war. The premier revealed these measures of reprisal to Parliament and the nation on introducing the third and fourth votes for credit to meet the expenses of the year. These are respectively [illegible] and to balance the expenditures of the current fiscal year making the total cost of eight months of war $1,810,000,000 and another vote [illegible] as the first installment for the year ending April 1.

"Germany has driven her opponents to adopt retaliatory policies to prevent commodities of every kind from reaching or leaving Germany," said Premier Asquith. The proposed measures of reprisal against Germany, he said, would be enforced with strict observance of the dictates of humanity but the allies did not propose "to allow their efforts to be strangled in a network of judicial niceties." Referring to the German naval campaign against British shipping, Premier Asquith declared Germany had violated systematically all the conventions intended for the mitigation of warfare. She had taken further steps, the premier said, by organizing an "undersea campaign of piracy and plunder." Germany, he declared, was not blockading and never could blockade English shore.

Referring to what he termed whispers of peace, Mr. Asquith said it was not time to talk of peace, that this time would arrive "only when the great purpose of the allies is in sight of accomplishment." He declared that the allies would hold themselves free to capture goods wherever there was a presumption that such goods were destined for the use of their enemies or had been sent from hostile countries.

# PRECAUTIONS TAKEN BY AMERICAN LINER

LIFE BOATS READY FOR INSTANT USE WHILE IN WAR ZONE

## NATIONALITY IS PLAINLY SHOWN

United States Flags Fly Prominently and Vessel Is Kept Ablaze With Lights

By Associated Press

New York March 1. The American line New York today arrived here from Liverpool after having taken unusual pains to make known her nationality while passing through the war zone declared by Germany. Extraordinary precautions against mines were observed to the extent of having the life boats swung outward ready for immediate use.

Flying the American flag the New York left her dock in Liverpool shortly after midnight February 20. Her lights were all lit as she steamed out to sea and some of the passengers said searchlights played on American flags which flew from almost every mast. The ship remained ablaze with lights and with all flags up while steaming through the war zone and until safe waters were reached.

Although it was reported that the New York's course was guarded by British torpedo boats to the limit of the war zone no such craft were seen by those aboard.

## BERLIN STATEMENT SAYS FRENCH ATTACKS REPULSED

Makes Mention of New and Deadly Bombs in Use By French Forces

By Associated Press

Berlin, March 1.—The German official statement follows:

In the western theatre of war, near Verviers north of Lilly an English flying machine has been forced to descend by our fire. At a certain part of our front the French have made use as they have done on previous occasions of a particular kind of shell which in exploding throws out evil and poisonous gases; these, however, did not damage.

"Our positions in the Champagne country were repeatedly attacked yesterday by at least two army corps. These forces were repulsed after fierce fighting at close quarters. In the Argonne at Vauquois the French made five attempts yesterday to break through our line. All these attacks were broken down with heavy loss to the enemy. The positions which we have occupied to the north west of Adonvillers were retained yesterday in spite of the attempts of the enemy to recapture them.

In the eastern arena of the war, we repulsed Russian attacks north of Gonsha and northwest of Ostrolenka. Otherwise there was nothing of importance to report.

# GIGANTIC FLANKING MOVEMENT FAILURE

RUSSIA THINKS THIS WAS PLAN OF GERMANS AT PRZASNYZ

## CLAIM VICTORY WAS DECISIVE

Germans Said To Have Lost Many Guns and Men In Their Rapid Retreat

By Associated Press

Petrograd March 1.—The highest importance is attached by the Russian military authorities to the German defeat at Przasnysz. It is asserted by Russian staff officers that the Germans hope of success during their operations of the last fortnight along the northern front was based upon their confidence in breaking the Russian line at Przasnysz. This attempt by the Germans to strengthen the position on their left wing which was an important plan for a gigantic encompassing movement extending from Augustowo to Eastern Galicia, is said today by the Russian leaders to have failed definitely.

The Russians assert that the retirement of the Germans in the north is more precipitate and disorderly than any previous retreat in this theatre of the war. They state that the Germans have abandoned large numbers of heavy and light guns and have even left behind slightly wounded soldiers in an effort to execute a hasty retreat. This condition of affairs according to the Russian viewpoint assumes added significance from the fact that the Germans are said to have employed some of their best troops in this fighting. There are many indications that the Germans were entirely confident of success.

The reported German plan for undertaking a siege of Grodno would now appear to be venturesome, with the Russians advancing along the left bank of the Niemen toward East Prussia and in endangering the position of the German left flank.

## RUSSIAN PROGRESS NEAR PRZASNYSZ IS CLAIMED

Prisoners and Artillery Captured In Fighting North of Grodno, From Best Corps

By Associated Press

Petrograd March 1. Semi-official announcement is made in Petrograd as follows:

Russian troops should be credited with the initiative in the movement north of Grodno. Prisoners and artillery captured by the Russians north of Grodno are from the best corps of the German armies now on the eastern front. Russian progress in the region of Przasnysz has been notable. We have captured one village after another, taking several hundred prisoners at each place. In some actions the Germans are delivering counter attacks, bringing fresh troops into action and certain villages pass from the possession of one side or the other. Nevertheless our front advances measurably each day."

## $45,000 PAVING ISSUE IS SOLD TO DENVER COMPANY

Buys Through Natt T. Wagner of This City—Bids Show Improvement in Market

The $45,000 paving bonds voted by the city several months ago were sold this morning to Natt T. Wagner of this city representing the Sweet, Causey, Foster Company of Denver for par and accrued interest to the date of delivery less $424.50 for attorney's fees, registration, shipment and printing of the bonds.

Mr. Wagner said that his company would hurry the examination and printing of the bonds as rapidly as possible. Mayor Britain told him that the sooner the money was available the better the council would be pleased.

Mr. Wagner's bid was much the best offered. Other bids received were as follows: Rollins & Co. par and interest less $900 for attorney's fees, printing, etc.; Kidder & Company par and accrued interest less $1125 for attorney's fees, printing, etc.; First National Bank city par and accrued interest less $675 plus printing and attorney's fees; Grant & Son, par and interest less $800 for attorney's fees, printing, etc.

All of the bids reflect improved conditions in the bond market since the city and county's hospital bonds were sold.

## *British And French Flags Fly Over Dardanelles—Early Taking Of Constantinople Not Expected*

## VERY STUBBORN STRUGGLE IN NORTH POLAND

## *Violent Engagement In Bukowina—French Gains In Champagne Not Admitted In Berlin*

By Associated Press.

**London, March 1.—The flags of Great Britain and France now are flying at the entrance to the Dardanelles over the Turkish forts reduced by the sea power of the allies. While it would appear to be a fact that the allied fleet had reached Chanak fifteen miles from the Mediterranean entrance to the straits, the British press warns the public not to expect the immediate fall of Constantinople. Nevertheless the operations of the British and French warships against the sea defenses of Constantinople are creating a tremendous stir in the near east.**

**Broussa in Asiatic Turkey has been selected by the Turks as their new capital in case it becomes necessary to evacuate Constantinople. The Germans in Turkey, it is declared, wanted the Turks to move to Adrianople in European Turkey, but the Turks would have none of this and started shipping their achives to Broussa.**

**Interest in the fighting along the eastern battle front has been deflected for the moment from the Carpathians to the north of Poland where the Russians appear to be making a desperate effort to regain the ground Field Marshal Von Hindenburg won when he forced them from East Prussia. Consequently the stubborn struggle continues on the line from the Bobr to the Narew rivers where Grand Duke Nicholas has yet to establish his ascendency. Vienna reports a violent engagement in Bukowina without saying anything about the outcome while Petrograd claims to have checked the Austro-German advance in this region.**

**In the west interest is centering on the fighting in the Champagne region where fierce attacks and counter attacks have marched the operations of the last week. Berlin claims to have repulsed the continued French advances in this region while Paris asserts the French troops have been successful in making progress in repulsing the German counter attacks. Paris claims also the capture of nearly two miles of trenches to the northwest and north of Beausejour.**

## DECIDED GAINS CLAIMED BY FRENCH IN CHAMPAGNE

Paris March 1.—The official statement follows:

### Love is So Strong

Love is so strong
It joins our souls forever more sweetheart
No matter though the winds of ill blow long
No matter how the storms of life upstart
Love is so strong

Yet love is weak
It can not stand alone amid the strife
It can not teach our faltering lips to speak
Love is so weak

But love is strong
Those whom our eyes have lost love still sees clear
And thoughts too deep for speech ring through love's song
And Love alone can face death's presence dear

# WILLIAMSON COUNTY SCENE OF OIL BOOM

MUCH EXCITEMENT FOLLOWS RECENT DISCOVERY IN THRALL VICINITY

## MANY WICHITANS VISIT SCENE

Leases Are Being Taken on Large Scale and Much Work is in Prospect

Williamson county now has a real oil boom following the recent discovery of oil at Thrall near Taylor several days ago. A Taylor dispatch to the Dallas News tells the situation there as follows:

The bringing in of the Fritz Fuchs oil well near Thrall about twelve miles east of Taylor last Sunday morning has given new life and an impetus to all mercantile lines in Taylor and business here is brisk. Property agents, the banks, the lawyers and land agents offices, the hotels and boarding and rooming houses are the activity principals and employes of same working overtime to accommodate the visitors, promoters and prospectors now arriving here on every train. The hotels are crowded to overflowing, beds and cots being placed in hallways and bat rooms to supply the demand for lodgings while cafes and restaurants are enjoying fine patronage.

It is estimated by conservative land agents that farm lands in the vicinity of the oil well have increased from 100 to 500 per cent in value. Hundreds and hundreds of leases are being taken.

### Leases Carry Royalty Clause

Following the leases yesterday of the H. Alva Stiles tract of 65 acres near the Fuchs well for a consideration of $31,000 cash to H. A. Johnson and associates of Corsicana, to Guy J. Vernon Stiles who owns an adjoining tract leased 55 acres to L. P. Garrett and associates of Beaumont for a consideration of $8,875. Both these deals carry the one eighth royalty clause and active operations are to begin in ninety days.

Another deal occurring late yesterday afternoon was the sale of the Taylor Oil Company, composed of Thomas Hage, George Tucker, M. E. Atchison, Fred Hoover and Tom McConnell of Taylor, P. H. McConnell of Giddings, P. M. Granberry of Houston and S. M. Lipscomb of Rockdale of a portion of their leasehold holdings amounting to 879 acres for a cash consideration of $17,000. Other deals of more or less magnitude are pending.

Among the latest arrivals in Taylor from other oil centers are A. W. Stait and C. C. Stait of the Houston Oklahoma Oil Company, also H. L. Stait of Houston president of the Prairie Oil Company and the Houston Oklahoma Oil Company. The latter official said concerning the new field:

There is too much excitement yet. Of course there is cause for it. There is no question in my mind but what the Thrall field is a great one. I think it is an extensive field and not just a pool. The oil is of splendid quality. In determining the extent of the field it must be remembered that for some time it has been known that we could strike oil in other counties in this section. In some other places the oil sand seemed shallow. In the Thrall field they have struck a good thick sand. Some big prices are going to be paid and some good propositions are going to be overlooked. A month from now we will be back here and both of us will be laughing at some things which have been done in the rush and confusion. This is a real oil rush.

Another oil man, Joe N. Patton of Corpus Christi, the man who so successfully capped the Luras well near Point Point when that gusher ran wild, arrived in Taylor today and has several drilling outfits which he is bringing to the Taylor Thrall field.

Stock companies for the drilling for oil are being formed at Taylor, Thrall, Rockdale, Hornsby and Elgin.

### Building Surface Tanks

Reports from the well today are that they are packing the six inch pipe to four inches, thus creating a conservation of gas. The well is flowing more steadily with an output daily of about five hundred barrels. Surface tanks are being constructed to retain the oil and a pipe line can be constructed to Thrall a distance of two miles.

Of the many prominent oil men of Texas now here watching the Thrall field are Lee Hager, Dave Beaty, Howard Figg, Lee Blaffer, P. M. Granberry, Bass, J. S. Cullinan, Wright and the Stait brothers and others of Houston.

TIMES PUBLISHING CO.,
ED HOWARD, Manager

In April there are to be elected three aldermen. There is no law that The Times is aware of that will prevent any qualified voter from holding one of those positions provided he will become a candidate and can secure enough votes to elect him. Therefore, if things are not being done to the liking of a majority of the people of this city, the way to correct the wrong is by the ballot—by electing men to fill those positions who will carry out the will and wishes of the majority. That is merely The Times' idea of such things.

The Times understands that the firm of architects who have been employed to draw up plans and specifications for the joint county and city hospital have a branch office in this city, and one member of the firm has resided in Wichita Falls and made this city his home for more than a year. The Times makes this statement for the purpose of setting aright another statement appearing in the columns of the Times which made it appear that the contract was awarded to an outside firm of architects. The Times has never had business relations with either member of the firm, and really did not know that it had a branch office in this city until our attention was called to the matter, and through the oversight on our part an injustice was perhaps done the architectural firm in intimating that it did not have an office in this city.

In the light of the facts Mr. President, there is no necessity for putting the government into the shipping business. Ponder this from your faithful friend, the Philadelphia Record: "In January our exports were worth $267,000,000, an increase of $63,000,000 over last year and of $40,000,000 over two years ago. The first effect of the war was to cut the exports in August down to $110,000,000 but since August they have been rising so rapidly and continuously as to make the complaints of a disastrous lack of shipping facilities look a little queer. In seven months the excess of exports was $403,000,000, which is more than it was in 1912 and 1911, and very much more than in 1910.—Waco Times-Herald.

That looks good on its face. But then when it is taken into consideration that the shipping trust has increased the ocean freight rates from $1.75 on a bale of cotton from Savannah to Bremen to $18.50 and that the cotton producer receives that much less for his cotton, then there is reason for the government to get into the shipping business. But by the aid of a few Democratic senators the Republicans have about succeeded in defeating the government ship purchase bill, and we may now expect the ship subsidy bill to come up and receive their support. The difference between the ship purchase bill and the ship subsidy bill is just this: If the ship purchase bill had become a law the government would have owned and operated a merchant marine for the benefit of the people of the United States. The ship subsidy bill means the government shal lpay for but not control the merchant marine. The controlling and fixing of freight charges will be the business of the shipping trust.

THE BEST LOOKING TOWN IN THE STATE.

Mr. Joe Hirsch, vice president of the Corpus Christi National Bank in a letter to Mr. R. E. Huff, among other things says:

"My visit to Wichita Falls was a revelation to me. We had just concluded a trip of about two thousand miles and had visited about nine or ten towns, and I want to say without exaggeration that Wichita Falls, in my opinion, is the best looking town of its size in the State, not even barring my own, Corpus Christi."

Mr. Huff says this is only a sample of the kind of letters he is receiving from the visiting bankers who had not recently visited our city prior to the convention.

### BURKBURNETT BAPTISTS HAVE CALLED NEW PASTOR

(Burkburnett Star)

The First Baptist congregation at this place held a church conference last Monday evening and by unanimous vote called Rev A S Albright to the pastorate of the church

Rev Albright is pastor of the Baptist church at Stanford Texas and formerly served a congregation at Cleburne He is a young man and seems well equipped for his chosen work He is a graduate of the Baptist Theological Seminary at Fort Worth

He preached at the local Baptist church last Sunday morning and at evening hour at the invitation of the Methodist pastor preached to a congregation that overran the large auditorium of the Methodist church where a revival meeting has been in continuous progress for four weeks

Rev Albright accepted the call and with his estimable wife will soon be a citizen among us The Baptist congregation have a splendid church building and parsonage likewise a good sized membership They have been without a pastor for several months and the calling of Rev Albright is gratifying not only to the membership of the church but to the other churches of the town
